### WORK EXPERIENCE

- Working in **TATA CONSULTANCY SERVICES LTD. PUNE** (October 2014 - till present : 1+ year)
- Current Project : **UK's one of the leading bank (TCS - Client)**
- Description :**

This is my first Project in TCS.  
Our team is into Assurance domain currently working on ETL Testing.  
Here we work on Bank's Data warehouse in order to evaluate the Bank's monthly feed's (data).  
We have to look for all the discrepancies such as extra records as well as any data Mismatches in the feeds that are uploaded at the end of the month.  
The process of extracting all the discrepancies requires complex queries which we have to fire alongwith Various filters implemented within the queries itself.  
**Technology Used** – SQL Server
- Responsibilities**

Understanding the project requirements.  
Unit and User Acceptance Testing.  
Preparing Test Scripts and Test Scenarios for newly developed applications.  
Reporting bugs directly to the Developers.
- Role** : Analyst

### PROFESSIONAL SUMMARY

- 3+ months of IT experience in Java and C. Developed the Project "**Infinity Cabs**" which was a Cab website designed on JavaScript. The website was designed to provide cab service for both luxury as well as economic class. Customer can book a Cab, by simply furnishing the pick-up details, along with the pick-up time and contact number. Site also describes the major tourism places of Hyderabad.
- .This project was submitted as a part of Final Submission which is carried out at the end of training course at **TCS, Hyderabad Center**.
